BLUE ORBIT GROUP

COMPANY PROFILE · 2 OCTOBER 2026

One Group. Multiple Sectors. A Single Standard of Execution.

A diversified Indian enterprise operating across security services, civil infrastructure, transportation & logistics, bioenergy & process engineering, and technology — built on a founding discipline that dates back to 1998.

Baner, Pune, Maharashtra, India

WHO WE ARE

Independent companies. One shared standard.

Blue Orbit Group's story does not begin with a diversification strategy. It begins with a single, narrower commitment made in 1998: to run a security services operation properly — trained personnel, verifiable licensing, and a level of accountability clients could rely on. That discipline is the thread connecting everything the Group has become since.

Multiple	6	India	1998
OPERATING SECTORS	GROUP ENTITIES	CURRENTLY SERVING	GROUP ORIGIN

HOW THE GROUP FORMED

1998	**Founding discipline established** — the Group's promoters enter the security services industry, building the operating standard every later company would inherit.
2017-21	**Diversification begins** — Abhisure Solutions (2017) and BlueOrbit Industries (2021) are established, extending the Group into technology and process engineering.
2020-23	**Infrastructure & formal security entity** — Antico Floortech (2020) is established for civil engineering and construction; BlueOrbit Security Shield is formally incorporated (2023), consolidating the Group's original security discipline.
Today	**Six independent companies** — each led on its own merits, each accountable to the same Group standard of financial discipline and ethical governance.

WHY BLUE ORBIT GROUP

What one Group standard actually means.

One Governance Standard, Every Sector

Every Group company operates under the same principles of financial discipline, ethical governance, and structured project management.

Licensed, Verifiable, Accountable

Where regulation applies, we meet it and can prove it — from BlueOrbit Security Shield's verifiable PASARA license to Antico Floortech's publicly verifiable GST registration.

Real Process, Not Just Promises

Each company works to a defined, repeatable methodology — site survey before deployment, feasibility before construction, route planning before a consignment moves, mass-balance modelling before a plant is built.

Sector Depth, Group-Level Scale

Each company is led by specialists in that specific field, backed by the resourcing and long-term stability of a group with over two decades of operating history behind it.

Discipline Before Diversification

We do not enter a sector until we can execute it to the same standard as the business before it. Every Group company earns its place through demonstrated capability.

Compliance Is a Floor, Not a Feature

Licensing, registration, and regulatory compliance are treated as the minimum starting condition for doing business — never marketed as a differentiator, because they should not need to be.

Accountability Has One Owner

Turnkey means turnkey: whether it's a construction handover, a security deployment, a process plant, or a technology rollout, one team is accountable for the outcome — not a chain of subcontractors pointing at each other.

Relationships Measured in Years

Our client base — from long-standing industrial names in logistics to repeat developers in construction — reflects a preference for depth over volume.

OPERATING COMPANIES

Six companies. One standard.

BlueOrbit Security Shield Pvt. Ltd.

Security Services

Infrastructure, commercial, industrial and residential security services licensed under PASARA, with a 24×7 Quick Response Team, facilities management, and payroll services.

CIN: U80100PN2023OPC225322 **Service Lines:** 13 **QRT:** 24/7

Antico Floortech Pvt. Ltd.

Civil Infrastructure

Civil engineering and turnkey construction across residential, commercial and industrial projects, with a technical team covering site engineering and safety.
