YASHWANT HARI FOUNDATION

COMPANY PROFILE · 2 OCTOBER 2026

Building Communities, Not Just Businesses.

The CSR and social impact arm of Blue Orbit Group — backed by real operating capability across construction, security, logistics and technology, since 1998.

COMPANY OVERVIEW

Yashwant Hari Foundation.

Yashwant Hari Foundation is the CSR and social impact arm of Blue Orbit Group, channelling the Group's resources and operational discipline into education, healthcare, skill development, women empowerment, environment and rural development programs across India.

WHO WE ARE

Purpose, backed by the discipline of a real operating group.

Yashwant Hari Foundation was established as Blue Orbit Group's dedicated CSR and social impact arm — a recognition that a group built on operational discipline in security, infrastructure, logistics, process engineering and technology has a responsibility to bring that same discipline to social impact work. Rather than treating corporate social responsibility as an annual line item, the Foundation runs structured, ongoing programs across eight focus areas, designed to compound in impact over years, not just satisfy a compliance requirement.

MISSION

Our mission is to run CSR and social impact programs with the same seriousness Blue Orbit Group applies to its commercial operations — structured, measured, and built to sustain over years rather than deliver one-off relief.

Structured, Ongoing Programs

Rather than one-off donations.

Cross-Group Capability

Drawn on where genuinely relevant.

The Same Financial Governance

As any Blue Orbit Group company.

Transparent Reporting

To partners and donors.

WHAT WE DO

Our Programs.

Education

Programs supporting academic achievement and access to education, including the annual Meritorious Student Honour Ceremony.

Healthcare & Ambulance Services

Community healthcare support and ambulance services.

Legal Aid

Legal aid support for community members who need it.

Skill Development

Skill-building programs drawing on the Group's own operating-company expertise.

Women Empowerment

Programs supporting women's economic and social empowerment.

Environment & Rural Development

Environmental initiatives and rural development programs, including construction expertise applied to community infrastructure.

WHAT MAKES OUR APPROACH DIFFERENT

Real operating capability, not just funding.

A CSR foundation backed by an actual construction company, security company, logistics company and technology company can offer more than a cheque.

Construction Capability

Rural infrastructure and community facility programs can draw on Antico Floortech's genuine civil engineering expertise.

Technology Capability

Digital literacy and skill-development programs can draw on Abhisure Solutions' technology expertise.

Governance Discipline

The same financial accountability standards applied across every Blue Orbit Group company extend to how the Foundation manages funds and reports back.

HOW WE WORK

From identifying a need to sustained delivery.

01 Identify the Need

Working with local partners and community contacts to understand what a community genuinely needs, not what's easiest to deliver.

02 Design the Program

Structuring a program around that need, drawing on Group capability where it genuinely adds value.

03 Deploy & Deliver

Running the program with the same project discipline applied across Blue Orbit Group's operating companies.

04 Measure & Report

Tracking whether the program is actually achieving its intended outcome, and reporting transparently to partners and donors.

05 Sustain or Scale

Deciding whether to continue, adjust or expand a program based on what the results actually show.
