BLUEORBIT LOGISTICS CORPORATION

COMPANY PROFILE · 30 SEPTEMBER 2026

Anywhere We Carry, We Carry With Care.

A Transport Contractor and Fleet Owner moving India's heaviest, most demanding cargo — part of Blue Orbit Group, with a founding discipline dating back to 1998.

Baner, Pune, Maharashtra, India

COMPANY OVERVIEW

BlueOrbit Logistics Corporation.

BlueOrbit Transportation is a reputed Transport Contractor and Fleet Owner moving heavy, lengthy and over-dimensional (ODC) consignments, containers, and full truck loads — backed by a strong, experienced and well-organized team and a branch network spanning 18 locations across India. Where standard freight movers stop, we specialize: multi-axle hydraulic trailers, full-route surveys, and the multi-state permit coordination that heavy, oversized cargo genuinely requires.

REGISTRATION

Trading as BlueOrbit Logistics Corporation · Part of Blue Orbit Group, since 1998

WHO WE ARE

Anywhere we carry, we carry with care.

We have a strong, experienced and well-organized team, which enables safe and prompt delivery of your consignment all over India. We specialize in carrying heavy, lengthy and over-dimensional (ODC) consignments, containers, full truck loads, sophisticated machinery and sensitive items — with equal care and expertise, virtually to any place in India. As part of Blue Orbit Group, whose roots trace back to 1998, we combine that operational experience with the Group's standards for governance, financial discipline, and long-term client relationships.

VISION

To be a trusted transport partner for industrial and engineering clients across India, known for care, reliability and the ability to move what other carriers can't.

MISSION

Our mission is to exceed customer's expectations through our services with complete dedication and integrity — acting as a business partner to our customers, helping them build a competitive edge by optimizing their supply chains through innovation and total commitment.

Complete Dedication & Integrity

On every single consignment, regardless of size or complexity.

A No-Nonsense, Client-First Approach

A straightforward way of doing business, because our clients are the base we stand upon.

A Supply-Chain Partner, Not Just a Carrier

Helping clients optimize their logistics, not simply moving boxes from A to B.

WHAT WE MOVE

Our Services.

Power & Energy

Transformers, turbines and heavy power-plant equipment moved with hydraulic axle trailers and route surveys for weight-sensitive infrastructure.

Renewable Energy

Wind turbine blades, nacelles and towers — a dedicated ODC specialization requiring long-length route planning and escort coordination.

Heavy Engineering & Infrastructure

Project cargo for EPC contractors and infrastructure developers, coordinated against site delivery schedules.

Industrial Machinery

Full truck load and ODC transport for pumps, compressors, gearboxes and other heavy industrial equipment.

Chemical & Process Industries

Reactor vessels, tanks and process equipment moved with the specialized handling heavy, often odd-shaped process cargo requires.

General Cargo & Warehousing

Container transport and full truck load services for businesses with standard freight and distribution needs.

CLIENTS WE'VE SERVED

Trusted by leading industrial & engineering names.

We're proud of the valuable service we've provided to our long and lasting clients.

Siemens · Larsen & Toubro · Crompton · POSCO Steel · Bajaj · Tata Motors · Suzlon · ISMT Ltd · Kirloskar Group · JCB Ltd · Hyundai · GM · Philips · LG · Maschio Gaspardo · Reliance

KEY TERMS EXPLAINED

ODC	Over-Dimensional Cargo — cargo exceeding standard height, width or length limits, requiring permits and often a police escort.
FTL	Full Truck Load — an entire truck or trailer dedicated to a single consignment.
Low-Bed / Semi-Low-Bed Trailer	A trailer with a lowered deck height used to carry tall or heavy machinery within legal height limits.
Hydraulic Axle	A modular trailer axle unit used in combination for very heavy or oversized loads, distributing weight across many wheels.

REAL WORK, REAL CARGO

Our Fleet at Work.

A selection of real consignments moved by our fleet — the scale, the route, and what each delivery actually required.

PUNE → MRPL, MANGALORE

Pressure Vessel

45 MT · 45×13×13 ft, delivered to Mangalore Refinery and Petrochemicals Limited — a hydraulic axle trailer, full route survey, and multi-state permit coordination.

PUNE → SATANA

Industrial Boiler, for Thermax Ltd.

35 MT · 30×13×15 ft. Boiler transport carries a specific challenge: load height and internal components mean tie-down and stability planning matter as much as route clearance.

PUNE → SHANKARGADH, M.P.

Process Equipment, for Thermax Ltd.

30 MT · 60×12×10 ft, delivered to Madhya Pradesh — a second, separate long-haul engagement with the same repeat client.

PUNE → RAWAN

Heavy Equipment

45 MT · 20×14×13 ft, delivered across genuinely difficult terrain, with final-mile approach planning confirmed in advance.

→ BALRAMPUR SUGAR MILL, U.P.

Centrifugal Machine Component

A precision night-time crane lift at destination — the kind of last-mile handling heavy process equipment requires once it reaches site.

MUMBAI → RAIGADH

Industrial Cable Reel

40 MT — an unusual, concentrated cylindrical load profile requiring specific securing methods.

EN ROUTE

Weatherproofed Process Equipment

Fully tarped and secured for transit — standard practice for protecting sensitive equipment surfaces from weather and road debris on long-haul moves.

Every consignment above was moved by our own fleet and documented at the point of delivery. Additional project references are available on request.

LEADERSHIP

The people behind the fleet.

Operational leadership drawing on years of hands-on transport and logistics execution.

Mr. Rajbahadur Yadav

Operation Head

Mr. Devidas V. Kilkile
